

Winter Camp XIV Update

Guru Selected

Lou Pezet stunned the members of Mahican Chapter by declaring himself boy leader of Winter Camp XIV at their September meeting. Since that time, Lou has been working hard to seize control of the event. In mid-October, Lou held a meeting and revealed his plans for domination. He proclaimed himself the "Master Guru" (or should that be "Louru"?) of Winter Camp and announced that he would be appointing 3 minor gurus to help make his wisdom known to Winter Campers everywhere. At press time, Lou had not revealed who these "Lesser Gurus" would be. Rumor has it that he himself is not sure who they are, but his press agent denied that claim.

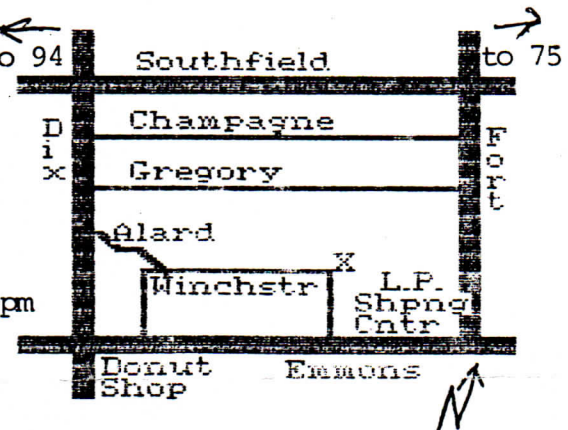

Costs Announced

For the first time in 3 years, the cost for Winter Camp has gone up. Citing the current situation in the Middle East and the declining value of the dollar, Master Guru Lou Pezet reluctantly raised the price from \$26.26 to \$27.27. In raising the price, he hastened to point out that the members would be served an outrageous variety of meals, and that the Kitchen Wisdom was being brought in from out of state to ride herd on the rising costs.

Secrets Revealed!

Through unnamed sources, we have discovered that the "Louru" intends to hold a planning meeting for Winter Camp XIV at the home of his Infinite Wisdom, Mike Osvath. Osvath resides at 1440 Winchester, Lincoln Park. His phone number is 928-0073 or 388-0153. Call and dupe his parents into revealing the directions. At right is a small map which may be of some assistance.

Meeting Date:
November 23
Friday at 1:00pm

Adviser Renamed

In an unprecedented action, Mike Osvath deposed Steve Donohue to become the adviser of Winter Camp XIV. Osvath was quoted as saying that "Daha lacks the maturity to serve as the Infinite Wisdom" and "Look at him, his very name means play." Long time campers will doubtless recall that no Winter Camp advised by Mike Osvath has ever broken even, and that he was the leader of the ill-fated Rebel patrol at Winter Camp IV. Mr. Donohue has taken a job with the Osvath regime as a Minor Wisdom and is reputedly plotting a coup.
